

INSIGHTS FROM THE INDUSTRY

Chief Anesthetist, Annabel Flunker's Perspective

In our latest video series, Annabel Flunker, Chief Anesthetist at Piedmont Eastside Medical Center in Atlanta, Georgia, shares her profound fulfillment in her work and how Premier Anesthesia has been a steadfast support for her and her team. Annabel opens up about her personal journey and experiences in the field of anesthesia, emphasizing the critical role she plays in saving lives, particularly during emergencies like childbirth complications. She highlights the significant impact her work has on patients and their families and discusses her commitment to providing emotional support and reassurance during and after surgery.

The Impact of High Turnover in Anesthesia Departments After Private Equity Takeovers

Private equity firms aim to boost profitability. However, their involvement often triggers significant turnover. In some specialized departments like anesthesia, changes in employment terms, compensation structures, and operational expectations can drive providers to seek more stable environments. The repercussions of these changes extend beyond the anesthesia department, affecting hospitals, patients, and the community.

Overbooked and Overwhelmed: The Consequences of Private Equity's Push for Profit

Private equity firms in healthcare often employ strategies like overbooking surgical cases to maximize efficiency and profitability, but this approach can have significant negative consequences. Overbooking leads to increased delays and patient wait times, strains operating room capacity, and overwhelms surgical teams, resulting in burnout and higher risks of errors. Additionally, patient care is disrupted, compromising safety and quality.
